

# Shire is pleased to announce its new OnePath<sup>®</sup> Co-pay Assistance Program for 2012, with 100% coverage for eligible expenses

## OnePath Co-pay Assistance Program

Shire believes that the costs associated with rare disease treatments should not be a barrier to patient access. In 2011, Shire was able to help 40% of the patients treated with Shire enzyme replacement therapy (ERT) products in the United States with their co-pay expenses through the OnePath Co-pay Assistance Program. We are pleased to announce enhancements to the program for 2012.

In 2012, Shire will assist eligible\* patients in the United States who have commercial insurance with their Shire enzyme replacement therapy co-pay expenses, including co-insurance and deductibles, regardless of financial status.

**Shire intends to cover eligible individuals' co-pay expenses, including co-insurance and deductibles, at 100% in 2012.**

- 
- STEP 3:** The drug provider receives reimbursement through the OnePath Co-pay Assistance Program
